
Reference-aligned Fig. 2: positive-region level flow and momentum filtering
S = 1/2
S = 3/2
S = 5/2
a
five doublets + four quartets + one sextet
multiplet gap (E − E0)/J1
intra-cell coupling α = J2/J1
b
α = 0.23
q=π spectral weight (%)
intra-cell coupling α = J2/J1
